SUBJECT: Amendment 1 to Request for Qualification 3282  
DATE OF AMENDMENT: January 20, 2017  
DATE OF RFQ RELEASE: January 10, 2017  
DATE AND TIME OF OPENING: February 7, 2017  
AGENCY CONTACT: Nancy Feser, Procurement Staff Member

---

The following shall be a part of RFQ 3282 for ***Fire Fuels Reduction and Vegetation Management Services***. If a vendor has already returned a proposal and any of the information provided below changes that proposal, please submit the changes along with this amendment. You need not re-submit an entire proposal prior to the opening date and time.

---

1. Do you require CD's? or can we use thumb drives?

***A thumb drive is acceptable.***

2. pg 14 4.3.3 Is the cost for transportation and water to be included in equipment cost?

***Yes, these costs should be factored into the bid.***

3. pg 15 4.3.6.1 D8 or larger, Is there a horse power and weight requested?  
There are many D8's running from 170 hp and up and weights of 50 k to 95 k.

***No, As long as the equipment can pull an Ely or smooth chain assembly which is approximately 180 feet in length and weighs approximately 22,000 lbs. – 28,500 lbs. in varied terrain and topographic features including hills, draws in a mountainous setting and capable of mountain seed dribblers we won't dictate the exact type of dozer to be used.***

4. pg 17 4.6.1 Is the vender hauling containers or providing containers or both?

***Both***

5. pg 17 4.6.5 Regarding log trucks - Would they go under this section or other specialized trailers? i.e. hay racks?

***Yes, they would fall under hay racks.***

6. Will other hauling services be included? i.e. water, log truck, chip truck or other specialized hauling equipment

*Yes*

7. Page 30/54 Section 10.1.6.4 - Is a 3 ring binder acceptable?

*Yes*

8. Page 12/54 Section 4.1.91. - Confirming costs are not needed for the response to RFQ.

*No, bid/cost will be required on an as needed basis depending on the project.*

9. Page 39/54 Section 11.2 - How is financial stability determined if financial information ( P&L, Balance Sheet ) are not required?

*Since the projects will be done on an as needed basis, and bids will be requested at that time, the financial stability will not be required as part of the proposal.*

10. On pg 4 second paragraph'  
What are the boundaries of Northern, Southern, Rural areas?

*There are no set boundaries, it is up to the Vendor to identify the areas of the State in which they are willing to operate as stated.*

11. On pg 5 - Can the pricing be kept confidential?

*No, cost is a matter of public record Per NRS 333, and will be required on a project, by project bases.*

**ALL ELSE REMAINS THE SAME FOR RFO 3282.**

Vendor shall sign and return this amendment with proposal submitted.

***RFQ 3282 Amendment 1***

This document must be submitted in the "State Documents" section/tab of vendors' technical proposal

## ATTACHMENT A – CONFIDENTIALITY AND CERTIFICATION OF INDEMNIFICATION

Submitted proposals, which are marked “confidential” in their entirety, or those in which a significant portion of the submitted proposal is marked “confidential” **will not** be accepted by the State of Nevada. Pursuant to NRS 333.333, only specific parts of the proposal may be labeled a “trade secret” as defined in NRS 600A.030(5). All proposals are confidential until the contract is awarded; at which time, both successful and unsuccessful vendors’ technical and cost proposals become public information.

In accordance with the Submittal Instructions of this RFQ, vendors are requested to submit confidential information in separate binders marked “**Part I B Confidential Technical**” and “**Part III Confidential Financial**”.

The State will not be responsible for any information contained within the proposal. Should vendors not comply with the labeling and packing requirements, proposals will be released as submitted. In the event a governing board acts as the final authority, there may be public discussion regarding the submitted proposals that will be in an open meeting format, the proposals will remain confidential.

By signing below, I understand it is my responsibility as the vendor to act in protection of the labeled information and agree to defend and indemnify the State of Nevada for honoring such designation. I duly realize failure to so act will constitute a complete waiver and all submitted information will become public information; additionally, failure to label any information that is released by the State shall constitute a complete waiver of any and all claims for damages caused by the release of the information.

This proposal contains Confidential Information, Trade Secrets and/or Proprietary information as defined in *Section 2 “ACRONYMS/DEFINITIONS.”*

*Please initial the appropriate response in the boxes below and provide the justification for confidential status.*

## ATTACHMENT C – VENDOR CERTIFICATIONS

Vendor agrees and will comply with the following:

- (1) Any and all prices that may be charged under the terms of the contract do not and will not violate any existing federal, State or municipal laws or regulations concerning discrimination and/or price fixing. The vendor agrees to indemnify, exonerate and hold the State harmless from liability for any such violation now and throughout the term of the contract.
- (2) All proposed capabilities can be demonstrated by the vendor.
- (3) The price(s) and amount of this proposal have been arrived at independently and without consultation, communication, agreement or disclosure with or to any other contractor, vendor or potential vendor.
- (4) All proposal terms, including prices, will remain in effect for a minimum of 180 days after the proposal due date. In the case of the awarded vendor, all proposal terms, including prices, will remain in effect throughout the contract negotiation process.
- (5) No attempt has been made at any time to induce any firm or person to refrain from proposing or to submit a proposal higher than this proposal, or to submit any intentionally high or noncompetitive proposal. All proposals must be made in good faith and without collusion.
- (6) All conditions and provisions of this RFQ are deemed to be accepted by the vendor and incorporated by reference in the proposal, except such conditions and provisions that the vendor expressly excludes in the proposal. Any exclusion must be in writing and included in the proposal at the time of submission.
- (7) Each vendor must disclose any existing or potential conflict of interest relative to the performance of the contractual services resulting from this RFQ. Any such relationship that might be perceived or represented as a conflict should be disclosed. By submitting a proposal in response to this RFQ, vendors affirm that they have not given, nor intend to give at any time hereafter, any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant or any employee or representative of same, in connection with this procurement. Any attempt to intentionally or unintentionally conceal or obfuscate a conflict of interest will automatically result in the disqualification of a vendor's proposal. An award will not be made where a conflict of interest exists. The State will determine whether a conflict of interest exists and whether it may reflect negatively on the State's selection of a vendor. The State reserves the right to disqualify any vendor on the grounds of actual or apparent conflict of interest.
- (8) All employees assigned to the project are authorized to work in this country.
- (9) The company has a written equal opportunity policy that does not discriminate in employment practices with regard to race, color, national origin, physical condition, creed, religion, age, sex, marital status, sexual orientation, developmental disability or handicap.
- (10) The company has a written policy regarding compliance for maintaining a drug-free workplace.
- (11) Vendor understands and acknowledges that the representations within their proposal are material and important, and will be relied on by the State in evaluation of the proposal. Any vendor misrepresentations shall be treated as fraudulent concealment from the State of the true facts relating to the proposal.
- (12) Vendor must certify that any and all subcontractors comply with Sections 7, 8, 9, and 10, above.
- (13) The proposal must be signed by the individual(s) legally authorized to bind the vendor per NRS 333.337.

## ATTACHMENT I – CERTIFICATION REGARDING LOBBYING

### Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

- (1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
- (2) If any funds other than Federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.
- (3) The undersigned shall require that the language of this certification be included in the award documents for all sub awards at all tiers (including subcontracts, sub grants, and contracts under grants, loans, and cooperative agreements) and that all sub recipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

**THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.**

## **ADDITIONAL INSURED COMBINED FORM**

This endorsement modifies insurance provided under the following:

### **COMMERCIAL GENERAL LIABILITY COVERAGE PART**

This endorsement changes the policy effective on the inception date of the policy unless another date is indicated below.

Endorsement Effective: 04/01/2016	Policy Number: BUI-003567-02
Named Insured: Bordges Timber, Inc.	Countersigned by: 

(Authorized Representative)

"Who is an insured" (Section II) is amended to include only those categories of person(s) or organization(s) described below with whom you are obligated by a written contract or written agreement to provide insurance such as is afforded by this policy and subject to the following:

- A. If the Additional Insured is a lessor of leased equipment this insurance does not apply:
- (1) To any "occurrence" which takes place after the equipment lease expires.
- B. If the Additional Insured owns or controls property on which you travel or perform operations related to your business as a "Motor Carrier", or is the manager or lessor of premises or land which is leased, rented or loaned to you, or which you must operate on or across, this coverage applies only as respects to liability arising out of the ownership, maintenance, or use of that part of the premises or land leased, rented or loaned to or occupied by you. However this insurance does not apply to:
- (1) Any "occurrence" which takes place after you cease to be the tenant in or on that premises.
  - (2) Structural alterations, new construction or demolition operations performed by or on behalf of the Additional Insured.
- C. If the Additional Insured is an Owner, Lessee, Contractor or Manufacturer this coverage applies only with respect to liability caused by operations performed directly by you and/or your employees, for the Additional Insured at a location designated in a written contract or agreement.
- This insurance does not apply to "bodily injury" or "property damage" occurring after:
- (1) All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or
  - (2) That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.
- D. If the Additional Insured is a state or other political subdivision:

**THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.**

- (1) This insurance applies only with respect to operations performed by you or on your behalf for which the state or political subdivision has issued a permit.
- (2) This insurance does not apply to "bodily injury", "property damage" arising out of operations performed for the state or political subdivision.

It is further agreed that such insurance as is afforded by this policy to any Additional Insured does not apply to any claims arising from the "Products-completed operations hazard".

The insurance afforded to the Additional Insured is only with respect to the Additional Insured's vicarious liability for your negligent acts or omissions. No coverage is afforded or extended by this endorsement for any claims arising out of the negligence or willful misconduct of the Additional Insured.

It is further agreed that we will not be responsible for the payment of attorney's fees and costs in the defense of the Additional Insured that are attributable to claims that do not fall within the coverage of this endorsement, and we have the right to allocate the payment of attorneys fees and costs between covered and uncovered claims at any time, including upon accepting the Additional Insured's tender of defense.

As used in this endorsement:

"Motor Carrier" means a person or organization providing transportation by "auto" in the furtherance of a commercial enterprise.

"Shipper" means any person or organization who hires, contracts or directs a "Motor Carrier" to transport property for or on their behalf.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

## ADDITIONAL INSURED – COMBINED FORM - AUTOMOBILE

This endorsement modifies insurance provided under the following:

**BUSINESS AUTO COVERAGE FORM**  
**MOTOR CARRIER COVERAGE FORM**

This endorsement changes the policy effective on the inception date of the policy unless another date is indicated below.

Endorsement Effective: 04/01/2016	Policy Number: BUI-003567-02
Named Insured: Bordges Timber, Inc.	Countersigned by:  (Authorized Representative)

"WHO IS AN INSURED" (Section II. A. 1) is amended to include only those categories of person(s) or organization(s) described below with whom you are obligated by a written contract or written agreement to provide insurance such as is afforded by this policy, subject to the following:

- A. If the Additional Insured is a lessor of leased autos this insurance does not apply:
- (1) To any "occurrence" which takes place after the equipment lease expires, or when the lessor or his or her agent takes possession of the "leased auto", whichever occurs first.
- B. If the Additional Insured is engaged in operations as a "Shipper" or "Motor Carrier", coverage afforded by this policy shall only apply as respects to liability arising out of hauling done by the Insured for the Additional Insured.
- C. If the Additional Insured owns or controls property on which you travel or perform operations related to your business as a "Motor Carrier", but only for liability which arises from use of a covered auto on property owned or controlled by the Additional Insured.
- D. If the Additional Insured is a state or other political subdivision:
- (1) This insurance applies only with respect to operations performed by you or on your behalf for which the state or political subdivision has issued a permit, work order or authorization.

- E. If the Additional Insured is an Owner, Lessee or Contractor, this coverage applies only with respect to liability caused by operations performed directly by you and/or your employees, for the Additional Insured at a location designated in a written contract or agreement.

The insurance afforded to the Additional Insured is only with respect to the Additional Insured's vicarious liability for your negligent acts or omissions. No coverage is afforded or extended by this endorsement for any claims arising out of the negligence or willful misconduct of the Additional Insured.

It is further agreed that we will not be responsible for the payment of attorney's fees and costs in the defense of the Additional Insured that are attributable to claims that do not fall within the coverage of this Endorsement, and we have the right to allocate the payment of attorney's fees and costs between covered and uncovered claims at any time, including upon accepting the Additional Insured's tender of defense.

As used in this endorsement:

"Motor Carrier" means a person or organization providing transportation by "auto" in the furtherance of a commercial enterprise.

"Shipper" means any person or organization who hires, contracts or directs a "Motor Carrier" to transport property for or on their behalf.

## WITH TERMS AND CONDITIONS OF RFP

I have read, understand and agree to comply with the terms and conditions specified in this Request for Proposal.

YES \_\_\_\_\_ I agree to comply with the terms and conditions specified in this RFP.

NO JB I do not agree to comply with the terms and conditions specified in this RFP.

In order for any exceptions and/or assumptions to be considered they **MUST** be documented in detail in the tables below. The State will not accept additional exceptions and/or assumptions if submitted after the proposal submission deadline. Vendors must be specific. Nonspecific exceptions or assumptions may not be considered. If the exception or assumption requires a change in the terms or wording of the contract, the scope of work, or any incorporated documents, vendors must provide the specific language that is being proposed in the tables below.

**Tab VI – Scope of Work**

## RFQ 3282 Technical Approach

The task order received by Bordges Timber Inc will be read and reviewed by Tim Bordges. An onsite visit will be made, during this visit we will look at tasks to be performed, i.e.; mastication, fuel removal, tree removal, chipping or grinding, clearing, seeding or whatever else would be asked to be done.

We look for project boundaries, environmental concerns, i.e.; archaeological sites, streams, stream areas, ephemeral and intermittent streams which might be effected by projects use of equipment , i.e.; noise, dust , access points to site, soil conditions and hazards that might occur while performing the task needed. Safety is greatly valued by Bordges Timber, Inc. Tim Bordges would address what methods, manpower and equipment would be used.

The project would start immediately upon the completion of all contractual obligations and conditions between the vendors and contracting officer. We will then request a pre operations meeting to discuss production rates and particulars of project depending on type of project. Usually we post safety signs, haul equipment to project site, have a meeting with crew to discuss hazards and job outline, boundaries of project and other sensitive measures needed to perform project.

Bordges Timber Inc. has experienced crews available to perform fuel reduction, tree thinning or wildlife habitat improvement as well as erosion control skills. Bordges Timber's highly skilled people have performed work on Thomphson Aspen on the Plumas Nat. Forest, Hopper Coral on the Plumas Nat. Forest and Spooner Summit Fuel Reduction for Nevada Dept of Forestry. Just recently, we have completed jobs on Weaverville Project, Lake Tabeaud Fuel Reduction, Greeley/Miller Ridge and Davonport/Eureka for PG&E.

All of the above were projects that were whole tree removal and thinning of stands in high use area. The logs were processed. The tops were ground or chipped and the areas were masticated.

Bordges Timber Inc. has the capabilities of chipping, grinding, piling of slash, and hauling of products, i.e. chips, slash, logs or firewood. We have timber fallers for trees that cannot be harvested by mechanical means, having worked for Pacific Gas & Electric downing hazard tree removal and mastication.

We have done trees at Ice House Reservoir, Union Valley and Sacramento Municipal Utility District (SMUDA) campground in the Pacific Ranger district of El Dorado National Forest. We have made bear dens at Forest Hill Ranger Station District out of long butts available from timber harvesting. Bordges Timber has done machine piling for Sierra Pacific Industries from 1994-2001. Using dozers with brush rakes we averaged 600 acres per year.

Bordges Timber has been doing fire suppression and fire repair with dozers, excavators, masticators and water trucks for many years with the USFS, BLM and Cal Fire. We have 30 years of hot line and fire line repair experience. Our mobilization is based on an hourly rate and not by mileage because of extra legal width, weights, and the unknown distance to projects. Bordges Timber is proposing to achieve fuel reduction, tree-thinning, wildlife habitat improvement and erosion control with equipment and man power. There are some things that manpower still has the upper hand in.

We will request a pre-operations meeting to discuss production rates, road work, and any other issues of concern. We intend to proceed from that point in flagging skid trails and landings. At the same time we will have a Cat 722, Faller buncher with bar saw and skid steer with 14" shear begin falling and begin falling appropriate timber and sub murch, placing them in at a 45 degree angle to skid trails where a Cat 518 rubber tire will grapple and skid doodles to landings with least amount of turning necessary. We will be placing sporax to all required stumps as directed. At that point a log loader will sort the pile timber and trees. If the log market provides opportunities to once again sell volumes of timber, we would gladly deliver logs to mills. The rest of the sub murch and small logs can be chipped and delivered to cogeneration plants in Quincy, Honey Lake and / or Buena Vista.

A brief description of each section and past performance of that type of work will be included in this technical approach under sections.

#### 4.1 Forest Management Hand Crew Services Specification

Bordges Timber Inc has done both forest health projects and fuel reduction projects and thinning projects over our 40 years of business. Our road side salvage projects have had hand piling and view strips in them where we picked up logging slash, limbs, and chunks and piled them as well as removing brush and hand thinning 3 – 9 DBH trees. These trees were fell limbed, cut into 3 – 6 ft pieces and hand piled into a tee pee shape piles for burning. A fire line was dug around the pile to mineral soil. On steep ground a ditch was dug on the lower side of pile to catch any roll outs from going down the hill, where the pile was burned. Bordges Timber has also done dozer piling of slash and debris and excavator piling and thinning. We have used 320 & 323 size excavators with rakes and thumbs to chunk and remove small trees in plantation and pile them for burning as well as jack pot piling of debris around and between larger trees. Bordges Timber has done wildlife improvement as well.

On the El Dorado National Forest Georgetown Road, we placed a dozer and excavator into Long Canyon creek and created fish holes by placing rocks onto other rocks to make pools for the fish. We also took the slide and placed water bars in and rechanneled the channel from straight to S turn to displace energy from the water. This work was done under the direction of the Forest Fish Biologist. Bordges Timber has also taken down red fur logs and other unmerchantable trees and placed them into a lean two type of structure for bears to den into above Hell Hole Reservoir.

On some of our timber sales, there are nature nook areas of trees that we leave untouched for deer to fawn in and to get shelter in from the wind. Bordges Timber has worked on Sage Summit Hen with the Truckee Range District to do experimental stand improvement which follows the guidelines in GR220 where we leave 5 acres untouched and the outward from the center leaving a mosaic pattern of nature nooks which are separated by thin areas. All of Bordges Timber's temporary roads, skid travel and landings are closed according to contract specifications. We use outsloping, water bars, trees and rocks as barriers, ditching, scattering wood debris or straw as filter strips for erosion control.

Service Associated With Scope	Cost Unit
A. Tree cutting (felling, liming, bucking)	Acre <b>\$1,200.00</b>
B. Burn pile stacking	Acre <b>\$1,850.00</b>
C. Pile burning	Acre <b>\$ 650.00</b>
D. Brushing	Acre <b>\$ 900.00</b>
E. Chipping	Hourly <b>\$ 350.00</b>
F. Fire line construction	LF <b>\$ 1.50</b>
G. Mobilization	Per Hour <b>\$ 110.00</b>

## 4.2 Large Tree Removal Services Specifications

### 4.2.12.1

**Class A:** 1 faller, transportation, buckler, person to sweep area for possible improvements that might be damaged, i.e.; Power lines under and above ground, water systems, septic systems. Plants and shrubs to be protected, Evaluate area for possible flying debris from trees, broken limbs, limbs from other trees or shrubs that may be brushed upon during falling, placement of safety signs and safety. The tree will have a clear path to lie on.

### 4.2.12.2

**Class B:** 1 faller climber, 1 ground person. This type of work requires the same approach as above with safety being our first concern i.e.; looking for possible hazards, rotten branches, bees, electrical lines, nails or metal in trees, impact on ground.

### 4.2.12.3

**Class C:** Bordges Timber will be happy to bid on a case by case basis. There are many variables, i.e.; height, slope, accessibility, existing hazards, fences, power lines, septic systems, irrigation systems and buildings. Mobilization for cranes is expensive. The distance could add significant cost as well as type of soil for stabilization and access to project.

## 4.2 Large Tree Removal

Bordges Timber Inc has completed many hazard tree removals from private grounds and USFS, S.M.U.D. and PG&E camp grounds. The tree removal around improvements is always a challenge. Septic systems, leach lines, pavement, water lines, BBQ's, fire boxes, picnic tables and barriers all had to be protected along with clean up of slash. In 2010, Bordges Timber did such a job on the Plumas National Forest, called Hopper Corral Stewardship. This project included Honker Gove and Grizzly Camp Grounds. This project included whole tree removal and total clean up. All tops were chipped for bio mass and the slash was removed and piled for burning. The project was successful. We have done many campgrounds on the El Dorado National Forest, Pacific District at Ice House, Wench Creek and Jones Camp Grounds as well as the PG&E 43 mile tract on Hwy 50 and SMUD A camp at Union Valley. For Sacramento Utility District we used hand fallers, jacks and mechanical equipment to perform the tasks. Some were trees taken down in sections or chunks. We have used tires stacked up to soften a tree crossing the pavement. We have climbed and roped trees for pulling or pushing and total clean up was performed. Tree stumps will be cut within 6" of ground on up hillside, all log segments will lay flat on ground, and all limbs will be removed.

### 4.3 - Forestry Equipment Specification

Our people have numerous years in the Timber and Construction industries. We have a Forester on staff. My operators know what a SMZ (stream management zone) and equipment limits. They are light on the land and have finesse at operating equipment. They can surgically remove trees without damage to other resources. They are aware of the dangers of flying debris, dust, compaction of soil issues as well as erosion issues. They have worked in and around archaeological sites with both limited and avoidance operations. They are familiar with USFS rules/regulations and Cal Fire rules/regulations as well as the State of Nevada Dept. of Forestry rules/regulations.

Bordges Timber has qualified timber operators to do forest health, logging, thinning and mastication projects. We provide a large range of equipment to do these changing projects. We have done Aspen stand improvement on the Plumas National Forest Thompson Aspen Stewardship. On the Tahoe National Forest, we have done 40 ac of brush piling using dozers. On the Plumas N.F. we have done plantation thinning, using excavators with thumbs to thin and pile the trees. On the Plumas N.F. we thinned two campgrounds, Honker Cove and Grizzly Campgrounds. These campgrounds have numerous improvements that needed protection and paved roads. We used rubber tracked equipment and machined felled the trees along with a hand feller, skidded the trees whole with rubber tire skidders and loaded the trucks with a rubber tire loader, then chipped all tops for bio mass and removed it.

Bordges Timber's crew and operators are as follows Steve Skochko, Jon Thurlander, Dennis Turpin, Jeff Edwardson, Steve Chasen, Ray Romine, Juan Lopaz, Tim Bordges, Bret Gibford, Chase Ryan, Gordon Powers and Ron Keller. Many of these operators are cross trained on many different types of equipment.

At the end of each work day all roads, cut banks, ditches and trails will be free of debris. Bordges Timber Inc. will have at each project a project supervisor in charge of each project.

A project award notice or letter of authority will be in writing for each project along with equipment needed and man power. The project can be bid by the hourly rate for equipment needed or by project.

#### Equipment that may be utilized:

##### 4.3.2.1 Tree Shear

Timbco 425 faller buncher with 30" shear  
Cat. 287 ATV with 14" shear  
Cat 299 ATV with 14" shear

The **Cat 287** and **299** tree shear are ASV type of CAT skid steers. These rubber tracked type of skid steer perform best on flat or level ground. They can run on medium pitches of 20% but are not productive over 30% slope.

The tracked faller buncher - Timbco **425** have self leveling cabs. They can work on 40% slopes productively and pitches up to 50%. This equipment is specially designed to work on slopes. Both have single bar grozer tracks.

##### 4.3.2.2 Brush Mastication and Mowers(Light, Med & Heavy)

(Light 287,299, ASV type)  
Cat 320 excavator w/FAE drum  
Cat 323 excavator w/FAE drum  
Cat 325 excavator w/FAE drum  
Cat 287 ATV w/FAE drum  
Cat 299 ATV w/ AFE drum  
Timbco 425 w FAE drum  
Cat 722 w FAE drum

**Cat 287 & 299** are rubber tracked skid steer machines with FAE drum type heads. They work best on light to medium fuel types and flat to level ground.

**CAT 320, 325 & 323 FM** excavators have a reach of 18 – 20 ft steel tracks. They are 20-25 metric ton machines with FAE drum type heads. They work best on light and medium fuel loads. They have 22" street pads on them for ground pressure.

**CAT 722** and **Timbco 425** are 30 – 35 metric ton machines which can work on slopes up to 50%. They are equipped with single bar grozers and a reach of 20ft. They work best in medium and heavy fuels.

#### 4.3.2.3 Feller Buncher

Timbco 425 w/30" bar saw

Cat TX 722 w/quadco hot saw or w/ 36" bar saw

#### 4.3.2.4 Forwarders

John Deere 1210

**John Deere 1210** rubber tire forwarder is a 6 wheel drive machine which carries the processed stems left behind from the 1270 procession. This machine loads itself with stems approximately 1/3 of a truck load and carries them out of the wood instead of skidding the stem on the ground, so there is less ground disturbance.

#### 4.3.2.5 Cut to length operators

John Deere 1270

**John Deere 1270 D** with 480 Head. This rubber tire processor is a low impact type of equipment. It has 6 wheel drive with a squirt boom with water 480 head which grabs the stem. A bar saw severs the stem, we push or pull the stem into a horizontal position, then process the stem by delimbing it, and measuring it into log lengths. This process is done in the woods. The 1270 has a reach of 20' with 270 degree rotation.

#### 4.3.2.6 Heavy Cranes

LinkBelt HSP25

**Linkbelt HSP 25** is a 25 ton rubber tire rough terrain crane capable of moving on and off roads. It has a 70' boom with two drums capable of lifting 25 tons.

#### 4.3.2.7 Wheeler skidders

Cat 518 w/100" log grapple rubber tire

Cat 528 w/110" log grapple rubber tire

Cat 525 w/100" log grapple rubber tire

**Cat 528** is a rubber tire skidder with wench and 100' log grapple. It has 174 HP with 24.5 x 32" tires. This is a large skidder capable of skidding whole trees up hill. The skidder can work on slopes 35 – 40 % straight up and down.

**CAT 518** is a smaller version of the 528 with only 130 HP and 23 x 26 " tires with wench and 100" log grapple. This skidder can also operate on slopes of 35 – 40 % straight up and down. These rubber tire skidders are friendlier on rocks than metal tracks

**CAT 525** is a rubber tire skidder with wench and 100" log grapple. This machine has 165 hp with 24.5 x 32" tires. It can work on slopes 35 – 40%.

#### 4.3.2.8 Tracked Skidder

Cat D5H tracked log skidder with 100" grapple and winch

Cat D7F

Cat 287

**Cat D7F** with 100 log grapple is a dozer with a log grapple capable of skidding timber along with road or skid road construction. It has 180 HP with 40ton capable of operation on 40 – 45 % slopes.

**Cat D5** is a D5 dozer custom built for log skidding with a longer track frame. It has a 100" log grapple and 6 way blade. This skidder has 145 HP and weighs 35 tons with 22 inch track pads and a ground psi of around 5 psi. This piece of equipment is light on the ground and produces a lot of production.

**Cat 287** is a rubber tracked skid steer with log forks or grapple, good for low impact and close corners. It can run on streets, load trucks and skid logs. It has 90 HP and ground pressure around 3.5 psi and has 90 hp.

#### 4.3.2.9 Tub Grinders

Beast 2680

**Beast 2680** horizontal grinder is mounted, 2 axle carriage. It can produce up to 40 ton per hour. 400 hp wt 2 ton

#### 4.3.2.10 Chippers

Peterson 4310 grinder

**Peterson 4310** chipper is a whole tree 800 HP tracked chipper capable of self mobility. It can produce up to 100T per hr. Wt is 30T, and has 18" single bar grozers.

#### 4.3.2.11 Bulldozer

D7G

D7H

**D7G** This tractor has simi U dozer and rippers. The simi U blade configuration carries dirt better than straight blade. The weight of this dozer is 48,000 lbs. and hp of 200.

**D7H** This dozer is an enclosed cab dozer with simi U dozer and ripper. The H series is a little bigger than the G series. The weight of the dozer is 55,000 lbs with a hp of 210. This dozer is equipped with rippers as well.

#### 4.3.2.12 Lawson Aerator

Lawson Aerator

**Lawson Aerator** is a drum type aerator best pulled with a 175 to 225 hp tractor, but can use a wheeled or track type power unit.

Above equipment expensed by the hour and includes fuel, maintenance, operator and replacement of wear items.

Equipment transport, water for fire suppression and dust abatement will be negotiated on a project by project basis.

## 4.6 Hauling Services

Bordges Timber has done trucking since 1979, when Tim bought his 1<sup>st</sup> log truck. Since then Bordges Timber owns 5 trucks and numerous trailers. We move most of all our own equipment on our low beds. We use the 10 wheel dump for aggregate and logs. For brush and stump removal we have 30' end dumps, chip vans, walking floor trailers which unload themselves, log dollies, 40' log trailers, flat bed trailers and belly dumps. Bordges Timber plans to use Sierra Disposal for their container freight in 10- 20-30 yd containers.

Bordges Timber will drop off containers at designated project site. The container will be able to hold wood chips or wood stems or cord wood. The containers are available in 10 – 20 – 30 cubic yards. The cost of container will be determined by distance to drop point, tipping fee, length of time used and rental fee. We also propose to use dump trucks with large boxes (16' box) or chip van high cube or end dumps, high side or log trucks or log trailer 45' with 4 bunks or walking floor trailers for removal of products

### Equipment that may be utilized:

#### Trucks:

- 79 KW log truck
- 79 KW water truck
- 91 Pete 3 axle truck
- 99 KW 3 axle truck
- 17 KW 4 axle truck
- 73 Mack 10 wheel dump truck 16' box

#### Trailers:

- 3 Log Dollies
- 2 Belly Dumps
- 2 Flat Bed Trailers
- 3 Lowbed Trailers
- 2 Chip Vans
- 1 45 ft Walking Floor Van
- 1 Dry Van

Bordges Timber will offer the State a price per cord based on wood type and amount and location on site by site basis.

Equipment transport, water for fire suppression and dust abatement will be negotiated on a project by project basis

## 4.9 Road Construction/Maintenance/Rehabilitation Specifications

Bordges Timber has been doing forestry and construction work since 1986. Most timber removal requires sale layout and planning during this process. The project area is defined; environmental issues are mapped and mitigated. Within most projects there are roads to be built, culverts to be installed, aggregate base to be placed, bridges to be installed and erosion control measures to be installed. Bordges Timber has completed 1 mile of new road construction for NDF at Spooner State Park, called Spooner Road. We installed water bars, out slope the road, did cut and fill work, added rolling dips, padded the existing road, rolled and compacted roadway, removed trees, stumps and installed a gate. Most roads are flagged prior to construction, draws are mapped, slopes and the grade of road are reviewed, obstacles are flagged, the timber is removed, and slash is piled or removed. The organic 2-4 inches of matter is removed or incorporated within the fills, slopes cut, low spots and draws are filled, culvert are placed, the road is watered and compacted, then final graded. Bordges Timber has built roads for PG&E, USFS, SPI, Michigan Cal, State of Nevada and other private people.

We are familiar with all types of erosion controls devices i.e.; water bars, ditches, use of waldals, silt fence, straw or slash scattering rock filter strips, just to mention a few. We have done temporary crossings. Using logs we made log stringer bridges to haul over, French drains and used Geo Textile fabric in roadway and drains. We have installed new pipe gates and signs, placed concrete barriers, set box culverts and poured bridge embankments, placed rip rap constructed gabion basket. We have built engineered rock walls.

Bordges Timber has the following crew and employees available, Steve Skochko, Jon Thurlander, Dennis Turpin, Jeff Edwardson, Matt Bordges, Steve Chasen, Ray Romine, Juan Lopaz, Tim Bordges, Bret Gibford, Chase Ryan, Mike Bordges, Gordon Powers and Ron Keller. Many of these operators are cross trained on many different types of equipment.

Bordges Timber Inc. has performed road maintenance, road building, reconstruction of roads, and home /commercial building pads and campgrounds.

On most Forest service sales prehaul and post haul maintenance is required, ditch cleaning, cross blading, line of sight brushing, culvert cleaning, armoring rolling dips, putting up barricades. Rocking road with AB, repairing asphalt, both permanent temporary erosion work from seeding seeding and strawing slopes to spreading slash or chips on slopes.

We have had to corduroy roads in the spring time to gain access to units. We have used geo-textile fabric with aggregate base over the top on native surface roads prior to applying aggregate base.

We have experience with new road construction performing all aspects, right away clearing, staking, timber removal and grubbing. Construction of road bed and key ways compaction of material used, construction of rolling dips inside of ditches, french drains, culverts and downspouts.

Bordges Timber has built roads for Sierra Pacific Industries, USFS, and private land owners. Due to unknown types of projects our equipment rates are by the hour of operation. We are willing to lump sum bids or piece bid. We have additional equipment that may be used in construction maintenance or rehabilitation. All equipment is pressure washed for safety and weed abatement.

### Equipment that may be utilized:

#### Back hoe

Cat 446-Rubber tire hoe

**CAT 446** 4x4 back hoe is a rubber tired tractor with a digging attachment on the rear and hydraulic stabilizers. It has an assortment of different size buckets from 12" to 48". Its weight is about 25 k lbs. It has a front end loader and bucket as well. The bucket is 3 cubic yds. The machine is 4x4 with an extension hoe

## Roller

Cat 563, smooth drum roller, 84" drum w/vibration, floatation tires

**CAT 563** smooth drum roller is an 84" smooth drum roller with vibration. It has 23' x 26' rear tires and approximately 90 hp. This machine is used to compact road surfaces.

## Grader

Cat 12G – 12' mulboard and rippers

**CAT 12G** is a 6 wheel grader with a 12' foot mulboard and ripper on the rear. It articulates in the center, has power shift transmission, 14:00 x 24:00 rubber tires, hp of 125 and a push block on front to help push trees.

## Dozers

Cat D7H - semi U blade w/ripper

Cat 7G – full U dozer and ripper

Cat D5H tsk – 6 way dozer w/grapple

**CAT D7** dozer is a 64 k lbs machine with 171 hp engine. It has rippers and semi U dozer 11" wide. The semi U allows user to carry soil further without losses.

**CAT 7G** dozer is a 54 k lbs machine with 200 hp. It has rippers and a full U blade. Again this allows user to carry soil further with less loss

**CAT D5H** tsk dozer is a 40 k lbs dozer with log grapple on rear to move timber and rocks. It is equipped with 10' 6 way dozers which also are able to cut angles without setting the dozer at that angle. The dozer is a straight blader. This dozer works nicely for water bars.

## Excavators

CAT 320 LLR excavator w/ thumb & 36" bucket

CAT 323 excavator

**CAT 320 LLR** excavator is a reduced tail swing radius machine with a thumb and extra hydraulics for attachments i.e. masticators, hammers shears. The excavator weight is 55k and hp of 153.

**CAT 323** excavator has a weight of 49 k lbs, has a thumb and extra hydraulics and hp of 145

## Skid Steers

Cat 299

Cat 287

**Cat 287 & 299** are rubber tracked skid steer machines with FAE drum type heads. They work best on light to medium fuel types and flat to level ground. Skids steers with tree shears, grapple buckets and gp bucket

## Wheeled Skidders

CAT 966B

CAT 966C

644 John Deere

**CAT 966** rubber tire wheel loader is a 150 hp loader weighing about 48 k lbs. It has 26.5 x 29 tires. It has a power shift transmission. It articulates in the middle. We have both g/p bucket and log forks for this loader.

**644 John Deere** rubber tire loader in the weight class. This machine articulates in the middle and has a 3 yard g/p bucket. It also has a log fork available. It is mainly used to land or carry materials i.e. dirt and rocks.

## Dump Trucks

Mack RL 700

**Mack RL 700** 10 wheeled dump truck has 430 hp engine with 15 speed transmission and 44 mack boggies. It is equipped with a 16 foot dumb box. It can carry 10 – 20 yds of material.

### **Belly Dumps**

Our belly dumps are pulled by a 3 axle tractor. These trailers are 28' & 30' long. They can carry 18-22 yds of material. The gates are single and adjustable.

### **End Dumps**

The end dumps are 30 – 35 foot. One is high sided or high cubic with a barn door at the rear. The other end dump has an air lift tail gate. We use these to transport brush, debris, rocks and firewood and logs.

There may be the need for other types of equipment which will be rented on a project by project basis. Equipment transport, water for fire suppression and dust abatement will be negotiated on a project by project basis.

**Tab VII Company Background & Business References**

## Section 4 Company Background and References

Bordges Timber Inc. is located at 4940 Old FrenchTown Road, Single Springs, CA 95682. Our contact phone numbers are office (530) 626-7930, Tim Bordges cell (530) 919-3711. Our corporate office is located in Diamond Springs which is 45 minutes west of Lake Tahoe. Employee's numbers vary with amount of work available. In the past Bordges Timber, Inc. had 24 employees and lately 3 to 4 over the last few years. To our knowledge Bordges Timber, Inc. has no civil, criminal litigations or any investigations pending.

Bordges Timber Inc. has been doing timber related work for 31 years. Formed in 1986 and incorporated in 1992, we began as a salvage logger taking dead and dying trees from campgrounds and roads in the national forest to being a Contract Logger for a number of sawmills:

- I.E Sierra Forest Products , Terra Bella, Ca
  - Larry Duson (559) 535-4893
- Wetsel Oviat Lumber, El Dorado Hills, Ca
  - Out of business
- Feather River Forest Products, Maryville, Ca
  - Out of business
- Michigan California Lumber, Camino, Ca
  - Out of business
- Georgia Pacific Corp., Martell, Ca
  - Out of business
- Sierra Pacific Industries, Lincoln + Camino, Ca
  - Dave Harkus (916) 645-1631 (in Lincoln)
- Basic Cascade, Medford, Or
  - Mark Blowers (541) 830-7903

As a Salvage Logger we would buy timber from the U.S. Forest Service to log and sell the logs to the mills. These timber sales would range from a few thousand dollars to hundreds of thousand dollars. One of our biggest sales was on the El Dorado National Forest Pacific Ranger Unit called In Living Color with gross revenues of 3 million estimated volumes of 12mbf. Bordges Timber has worked on the following National Forests:

- USFS Tahoe, NF
  - Tony Redarte
- USFS El Dorado, NF
  - Don Errington (530) 644-3349
- USFS Stanislaus NF
  - Carl (209) 795-1381
- USFS Sequoia NF
  - Pat Dauwalder(760) 376-3781
- USFS Plumas, NF
  - Karen Newsted (530) 836-2575

As a Contract Logger we worked for the saw mills on both U.S.F.S and private to cut and deliver logs to the mill. We are a licensed Timber operator LT A8195 as well as Small Business Certified 17786. We are familiar with the Forest Practice Rules and haven't had any violations in our company history. The company is insured and bondable; familiar with wood products. We have chipped wood for paper and biomass, masticated brush and plantations, mechanized logs to mills as far away as Oregon, and operated sort yards where we scaled and graded logs for both domestic and foreign markets. We moved logs by boat, train, flatbed truck, and log trucks. In recent years, with the decline of our timber market and mill closures, Bordges Timber has been doing Fuel Management and Forest Health Stewardship projects. Bordges Timber has helped Cal Fire, USFS, BLM and PG&E to do fire suppression and fire line rehabilitation. In the last few years, this has been a big part of our business.

## 5.

## COMPANY BACKGROUND AND REFERENCES

## 5.1 VENDOR INFORMATION

5.1.1 Vendors must provide a company profile in the table format below.

Question	Response
Company name:	<i>Bordges Timber Inc</i>
Ownership (sole proprietor, partnership, etc.):	<i>Inc</i>
State of incorporation:	<i>California</i>
Date of incorporation:	<i>1/8/1992</i>
# of years in business:	<i>30</i>
List of top officers:	<i>Tim Bordges</i>
Location of company headquarters:	<i>4940 Old French Town Road Shingle Springs CA 95682</i>
Location(s) of the company offices:	<i>4940 Old French Town Road Shingle Springs CA 95682</i>
Location(s) of the office that will provide the services described in this RFQ:	<i>4940 Old French Town Road Shingle Springs CA 95682</i>
Number of employees locally with the expertise to support the requirements identified in this RFQ:	<i>12</i>
Number of employees nationally with the expertise to support the requirements in this RFQ:	<i>12</i>
Location(s) from which employees will be assigned for this project:	<i>4940 Old French Town Road Shingle Springs CA 95682</i>

5.1.2 **Please be advised**, pursuant to NRS 80.010, a corporation organized pursuant to the laws of another state must register with the State of Nevada, Secretary of State's Office as a foreign corporation before a contract can be executed between the State of Nevada and the awarded vendor, unless specifically exempted by NRS 80.015.

5.1.3 The selected vendor, prior to doing business in the State of Nevada, must be appropriately licensed by the State of Nevada, Secretary of State's Office pursuant to NRS 76. Information regarding the Nevada Business License can be located at <http://sos.state.nv.us>.

Question	Response
Nevada Business License Number:	<i>NV20101680787</i>
Legal Entity Name:	<i>Bordges Timber Inc</i>

Is "Legal Entity Name" the same name as vendor is doing business as?

Yes	<b>X</b>	No	
-----	----------	----	--

If "No", provide explanation.

5.1.4 Vendors are cautioned that some services may contain licensing requirement(s). Vendors shall be proactive in verification of these requirements prior to proposal submittal. Proposals that do not contain the requisite licensure may be deemed non-responsive.

5.1.5 Has the vendor ever been engaged under contract by any State of Nevada agency?

Yes	X	No	
-----	---	----	--

If "Yes", complete the following table for each State agency for whom the work was performed. Table can be duplicated for each contract being identified.

Question	Response
Name of State agency:	<i>State of Nevada Depart of Conservation &amp; NR Division of Forestry</i>
State agency contact name:	<i>Paul Carmichael</i>
Dates when services were performed:	<i>10/5/2011 to 6/2012</i>
Type of duties performed:	<i>Purchase Order # 112176- Spooner Logging Road – 1 mile long new road &amp; ½ mile road to be improved, additional fill material, culvert and gates</i>
Total dollar value of the contract:	<i>\$74,250.00</i>

5.1.6 Are you now or have you been within the last two (2) years an employee of the State of Nevada, or any of its agencies, departments, or divisions?

Yes		No	X
-----	--	----	---

If "Yes", please explain when the employee is planning to render services, while on annual leave, compensatory time, or on their own time?

If you employ (a) any person who is a current employee of an agency of the State of Nevada, or (b) any person who has been an employee of an agency of the State of Nevada within the past two (2) years, and if such person will be performing or producing the services which you will be contracted to provide under this contract, you must disclose the identity of each such person in your response to this RFQ, and specify the services that each person will be expected to perform.

5.1.7 Disclosure of any significant prior or ongoing contract failures, contract breaches, civil or criminal litigation in which the vendor has been alleged to be liable or held liable in a matter involving a contract with the State of Nevada or any other governmental entity. Any pending claim or litigation occurring within the past six (6) years which may adversely affect the vendor's ability to

Yes		No	X
-----	--	----	---

If “Yes”, please provide the following information. Table can be duplicated for each issue being identified.

Question	Response	
Date of alleged contract failure or breach:		
Parties involved:		
Description of the contract failure, contract breach, or litigation, including the products or services involved:		
Amount in controversy:		
Resolution or current status of the dispute:		
If the matter has resulted in a court case:	Court	Case Number
Status of the litigation:		

- 5.1.8 Vendors must review the insurance requirements specified in ***Attachment E, Insurance Schedule for RFQ 3282***. Does your organization currently have or will your organization be able to provide the insurance requirements as specified in ***Attachment E***.

Yes	X	No	
-----	---	----	--

Any exceptions and/or assumptions to the insurance requirements ***must*** be identified on ***Attachment B, Technical Certification of Compliance with Terms and Conditions of RFQ***. Exceptions and/or assumptions will be taken into consideration as part of the evaluation process; however, vendors must be specific. If vendors do not specify any exceptions and/or assumptions at time of their RFQ response submission, the State will not consider any additional exceptions and/or assumptions during negotiations.

Upon contract award, the successful vendor ***must*** provide the Certificate of Insurance identifying the coverages as specified in ***Attachment E, Insurance Schedule for RFQ 3282***.

- 5.1.9 Company background/history and why vendor is qualified to provide the services described in this RFQ. Limit response to no more than five (5) pages.
- 5.1.10 Length of time vendor has been providing services described in this RFQ to the public and/or private sector. Please provide a brief description.
- 5.1.11 Financial information and documentation to be included in Part III, Confidential Financial Information of vendor’s response in accordance with Section 10.5, Part III – Confidential Financial Information.

## 5.2 SUBCONTRACTOR INFORMATION

5.2.1 Does this RFQ response include the use of subcontractors?

Yes		No	<b>unknown</b>
-----	--	----	----------------

If "Yes", vendor must:

- 5.2.1.1 Identify specific subcontractors and the specific requirements of this RFQ for which each proposed subcontractor will perform services.
- 5.2.1.2 If any tasks are to be completed by subcontractor(s), vendors must:
  - A. Describe the relevant contractual arrangements;
  - B. Describe how the work of any subcontractor(s) will be supervised, channels of communication will be maintained and compliance with contract terms assured; and
  - C. Describe your previous experience with subcontractor(s).
- 5.2.1.3 Vendors must describe the methodology, processes and tools utilized for:
  - A. Selecting and qualifying appropriate subcontractors for the project/contract;
  - B. Ensuring subcontractor compliance with the overall performance objectives for the project; and
  - C. Ensuring that subcontractor deliverables meet the quality objectives of the project/contract; and
  - D. Providing proof of payment to any subcontractor(s) used for this project/contract, if requested by the State. Proposal should include a plan by which, at the State's request, the State will be notified of such payments.
- 5.2.1.4 Provide the same information for any proposed subcontractors as requested in *Section 5.1, Vendor Information*.
- 5.2.1.5 Business references as specified in *Section 5.3, Business References* must be provided for any proposed subcontractors.
- 5.2.1.6 Vendor shall not allow any subcontractor to commence work until all insurance required of the subcontractor is provided to the vendor.

- 5.3.2 Vendors must provide the following information for every business reference provided by the vendor and/or subcontractor:

The "Company Name" must be the name of the proposing vendor or the vendor's proposed subcontractor.

<b>Reference #:</b>	<b>3282</b>

**Emergency service calls \$ Negotiable /Hour**

### 4.3 Forestry Equipment Specification

<u>Equipment</u>	<u>Price</u>
<b>4.3.2.1 Tree Shear:</b>	
CAT277 Fallbuncher with 30" shear	\$230.00 per hour
Timbco 425 Fallbuncher with 30" shear	\$230.00 per hour
CAT 299 ATV with 14" shear	\$185.00 per hour
<b>4.3.2.2 Brush Mastication Light/Medium/Heavy:</b>	
CAT 320 Excavator with FAE Drum	\$195.00 per hour
CAT 323 Excavator with FAE Drum	\$200.00 per hour
CAT 325 Excavator with FAE Drum	\$210.00 per hour
CAT 287 ATV with FAE Drum	\$170.00 per hour
CAT 299 ATV with FAE Drum	\$180.00 per hour
Timbco 425 Quadco	\$230.00 per hour
Cat TX 722 with FAE drum	\$230.00 per hour
<b>4.3.2.3 Fellerbuncher:</b>	
Timbco 425 with 30" bar saw	\$235.00 per hour
CAT TX 722 with quadco hot saw or 36' bar saw	\$235.00 per hour
<b>4.3.2.4 Forwards:</b>	
John Deere 1210	\$225.00 per hour
<b>4.3.2.5 Cut to Length</b>	
John Deere 1270	\$300.00 per hour
<b>4.3.2.6 Heavy Cranes:</b>	
HSP – 25	\$450.00 per hour
<b>4.3.2.7 Wheel Skidders:</b>	
Rubber tire CAT 518 with 100 log grapple	\$165.00 per hour
Rubber tire CAT 528 with 120 log grapple	\$175.00 per hour
<b>4.3.2.8 Tracked Skidder:</b>	
CAT D5h Tracked log Skidder with 100' grapple and winch	\$175.00 per hour
<b>4.3.2.9 Tub Grinder:</b>	
Roto chopper 266	\$330.00 per hour
Peterson 4710 Grinder	\$360.00 per hour
Beast 2680	\$300.00 per hour
<b>4.3.2.10 Chipper:</b>	
Peterson 4310 Tracked	\$360.00 per hour
Chipper Morbark 30/36	\$320.00 per hour

**Log Loaders:**

JD 624 Rubber Tire	\$165.00 per hour
CAT 966b Rubber Tire	\$165.00 per hour
CAT 966C Rubber Tire	\$175.00 per hour
Link Belt 4300 Track Machine with 60" log grapple	\$185.00 per hour
CAT 287 with log forks	\$175.00 per hour

Above equipment expensed by the hour and includes fuel, maintenance, operator and replacement of wear items. This does not include transportation or removal of equipment to and from project as well as removal of products from project.

Bordges Timber Inc is willing to bid projects by lump sum total value not to exceed pricing or by any other negotiable means acceptable to parties.

**Normal Business hours, (8:00 A.M. - 5:00 P.M. M-F)**

**After hours (5:01 P.M. to 7:59 A.M. M-F) \$ Negotiable /Hour**

**Emergency service calls \$ Negotiable /Hour**

## 4.6 Hauling Services Specifications

### Hauling of Equipment:

#### Service

#### Price

Hauling 80k	\$105.00 per hour
Lowbed Legal Weight 80k	\$115.00 per hour
Under 12' oversize legal weight 80k	\$125.00 per hour plus permits
Over 12' oversize legal weight 40k	\$140.00 per hour plus permits and pilot car
12' under oversize over weight 100k	\$125.00 per hour plus permits
12' and oversize over weight 120k	\$140.00 per hour plus permits and pilot car
Pilot car	\$ 75.00 per hour
Permits	\$ 40.00 each
Log Trucks 80k	\$110.00 per hour
Hay Racks 80k	\$120.00 per hour
Water Trucks 56k	\$110.00 per hour
End Dumps 80k	\$115.00 per hour
Belly Dumps 74k	\$115.00 per hour
Walking Floor 80k	\$120.00 per hour

Hauling of chips, logs, wood grinds, dirt, aggregate, slash; 80k GVW based at \$105.00 per hour. We may also agree to haul by the ton or by the load.

**Normal Business hours (8:00 A.M. to 5:00 P.M. M-F)**

**After hours (5:01 P.M. to 7:59 A.M. M-F) \$ Negotiable /Hour**

**Emergency service calls \$ Negotiable /Hour**

## 4.9 Road Construction/Maintenance/Rehabilitation

This is a list of equipment that may be used to perform road blazing, grading, backhoe/trackhoe work, rock removal, tree removal, cut & fill work, skid trail construction, installation of drainage structures, existing road and skid trail maintenance and skid road rehabilitation following project conclusion.

<u>Service</u>	<u>Price</u>
Road Crew Personnel	\$65.00 per hour
<b>Road Maintenance Equipment:</b>	
<b>Backhoe:</b>	
CAT 446 4x4 with 4 in 1 bucket	\$140.00 per hour
<b>Roller:</b>	
CAT 563 Smooth Drum 84" with vibration	\$165.00 per hour
<b>Dozers:</b>	
CAT D7h semi U-Blade with ripper	\$185.00 per hour
CAT D5h 6-way dozer grapple	\$175.00 per hour
CAT D6n 6-way dozer ripper	\$155.00 per hour
CAT D5h 6-way dozer ripper	\$155.00 per hour
<b>Tree Shear:</b>	
Timbco 425 Fallbuncher with 30" shear	\$230.00 per hour
CAT 287 ATV with 14" shear	\$170.00 per hour
CAT 299 ATV with 14" shear	\$180.00 per hour
<b>Fallerbuncher:</b>	
Timbco 425 with 30" bar saw	\$235.00 per hour
CAT TX 722 with quadco hot saw or 36' bar saw	\$235.00 per hour
<b>Wheel Skidders:</b>	
Rubber tire CAT 518 with 100 log grapple	\$165.00 per hour
Rubber tire CAT 528 with 120 log grapple	\$175.00 per hour
<b>Tracked Skidder:</b>	
CAT D5h Tracked log Skidder with 100' grapple and winch	\$175.00 per hour
<b>Log Loaders:</b>	
JD 624 Rubber Tire	\$165.00 per hour
CAT 966b Rubber Tire	\$165.00 per hour
CAT 966C Rubber Tire	\$175.00 per hour
Link Belt 4300 Track Machine with 60" log grapple	\$185.00 per hour
CAT 287 with log forks	\$170.00 per hour
<b>Water Trucks:</b>	
79 KW Water Truck 3600 gal	\$110.00 per hour
94 Pete Water Truck 4000 gal	\$110.00 per hour
<b>Forwarder</b>	
John Deere	\$225.00 per hour
